

Dear Partner or future Partner, unified messaging is blossoming and helps companies of all sizes to centralize all their messages in their email box and to make huge savings.

New technologies are always on the move; that is the reason why we anticipated and created ActivMail unified messaging systems in 2000.

Become Partners and resell high-level services to your clients. Our innovative, all-in-one and top-quality service will make them trust you.

•

• **•5 reasons to become ActivMail Partners** • **•1. A profitable market** • •According to a Frost & Sullivan survey: "The growth of the unified messaging market increases at the same time as the use of the Internet and of Emails explodes (...). Thus, the growing number of travelling professionals will affect the market's development."

•

•

2. Benefit from many assets

•

•

ActivMail Partners are offered attractive prices and personalized free advices to develop their selling figures. Besides, we regularly communicate on the launch of new products (like ActivCell) and on the development of existing services. Finally, free technical support is provided through email, fax or telephone.

•

-

3. Marketing and business tools

-
-

ActivMail continuously supports its Partners thanks to many marketing tools like our brand-new website, activmail.com, created to help you to promote our unified messaging services. Feel free to use our site and its content to sell our solutions. We can also provide you personalized commercial documentation, models of mailings, leads, press releases etc.

- **•4. Zero risk** • •Reselling ActivMail is a safe business. In order to collect revenues on a monthly basis thanks to our solutions, feel free to set your own prices, set your margin on your clients' subscriptions and consumptions.
- **•5. White Label Product**

- Resell ActivMail in White Label: a service produced by one company (us) that other companies (you) rebrand to make it appear as if they made it. The solution will hold your name and we will provide you your own website with your name of domain (ex: www.yourcompany.com if available).
